VIOLATION OF TREATY

ACCUSATION IS MADE AGAINST NEWFOUNDLAND BY AMERICAN FISHERMEN.

ROOT TAKES UP THE MATTER

SECRETARY OF STATE BEGINS AN INVESTIGATION INTO THE CHARGES MADE.

Washington, Oct. 17.—Through Representative Gardner of Massachusetts, the Gloucester fishermen Monday officially laid before the state department their grievances against the Newfoundland government, which they charge with forbidding all vessels of American register to fish on the treaty coast. This right, the fishermen claim, is granted them by the treaty of 1818 between the United States and Great Britain.

Through the British ambassador, Sir Mortimer Durand, Secretary Root has been informed that the Newfoundland government disclaims all knowledge of any action in violation of this treaty. The Newfoundland government admits the arrival at the Bay of Islands on board the cruiser Fiona of the minister for marine and fisheries, but insists he is there on duty not connected with the question.

Until Representative Gardner has been able to obtain further details of the reported action of the Newfoundland government against the fishermen and the reasons therefor, Secretary Root will not make further representations to the London government. Mr. Gardner has telegraphed to Gloucester to obtain additional information.

The Gloucester and Newfoundland fisheries question was revived last week by a telegram received by Secretary Root from Senator Lodge saying it was reported that the Newfoundland cruiser Fiona had arrived in the Bay of Islands on the treaty coast with the minister for marine and fisheries on board, and that the minister had forbidden all vessels of American registry to fish on the treaty coast where they were then located.

Governor Will Investigate.

A communication was immediately sent to the British ambassador at Lennox requesting any information he might have on the subject. The ambassador communicated with the Newfoundland government by wire and started immediately for Washington, arriving here Friday night. Since then the secretary has received from the ambassador the contents of the latter's dispatch from the governor of Newfoundland, expressing ignorance of the report, and adding he would investigate its accuracy. These are all the facts in the possession of the department thus far.

Representative Gardner and Benjamin A. Smith, a Boston ship owner, who accompanied him to Washington, had a long conference with Secretary Root Monday morning. They presented all information they possessed on the subject. Information had reached them that certain American captains of fishing vessels now in the Bay of Islands had been forbidden by the minister of fisheries to ply their business there. The report assigned no reason for this alleged order. A speech made last spring, however, by Sir Robert Bond, premier of Newfoundland, in which he is quoted as advocating the exclusion of American fishermen from certain waters not specifically mentioned in the treaty of 1818, led to the suspicion that the alleged order might form the initiation of this policy.

The Gloucester fishermen contend that if this is the position of the Newfoundland government they are prepared to meet that issue by an array of facts which will prove the incorrectness of any such construction of the treaty.

The rights threatened have been enjoyed by American fishermen for ninety years. The reported interpretation of the treaty would prohibit them from fishing in the bays and harbors of the Newfoundland coast.

It is believed that there has been some misunderstanding which can easily be cleared up as soon as the facts can be obtained.

Woman Ends Her Life.

New York, Oct. 17.—While her boarders were at dinner Monday Mrs. Caroline Buehler of St. George, S. I., suddenly excused herself and going to her room shot herself through the head with a revolver. She was dependent over the death of her four-year-old son, who was accidentally killed last winter.

Banker Sent to Prison.

Kenosha, Wis., Oct. 17.—Frank S. Komp of Chicago, the former president of the Kenosha State bank, was sentenced Monday in the circuit court to two years at hard labor in the state prison at Waupun. Komp was found guilty on a charge of perjury.

GASHOUSE BLOWN TO PIECES.

Two Persons Badly Injured and a Dozen Others Slightly Hurt.

Erie, Pa., Oct. 17.—Two terrific explosions at the main supply house of the Penna Gas company just outside the city early Monday evening have cut off completely the supply of natural gas used for heating and lighting in the city. The gashouse tender, Benjamin Donovan, aged thirty-six years, and his little son, Nell Donovan, aged four, were probably fatally injured. Mrs. Mary Donovan, his wife, was burned in escaping from the residence, which was wrapped in flames the instant the gashouse exploded. A dozen others were slightly injured. The accident was caused through a bonfire that the gas tender started in his yard to burn a pile of rubbish. He started the fire close to a large supply pipe eight inches in diameter that conveys the natural gas from Warren county to this city and in which a small leak let the gas escape so that it communicated with the bonfire. As the pipe exploded Donovan was hurled against the gashouse, which burst into flames. His son was caught in the midst of the flames. Forgetting his serious burns Donovan ran to the boy and covering him with his coat carried him to a place of safety. People ran to the scene from all directions and had started to subdue the fire when a second explosion sent the gashouse into bits, taking with it the other big main, which is twelve inches in diameter. A dozen people were slightly hurt and the gas burned up in a blaze that was visible for miles. As soon as possible the gas company had the supply shut off.

PRESIDENT ROOSEVELT BUSY.

Preparing for His Trip Through the South.

Washington, Oct. 17.—President Roosevelt is busily engaged in preparing for his trip through the South, on which he will start next Wednesday morning at 8:30 o'clock. For a considerable time Monday he was at work with Secretary Loeb in clearing his desk of an accumulation of business. Few visitors will be received by the president before he leaves for the South and they will be persons who have urgent official business which cannot be postponed until after his return about Nov. 1.

STORM IN NORTH SEA

MANY VESSELS HAVE FOUNDERED AND TWENTY-FIVE SAILORS HAVE PERISHED.

Hamburg, Oct. 17.—A terrific north-west storm, accompanied by rain and hail, has been raging in the North sea for four days. Many vessels have foundered or been damaged and twenty-five sailors are known to have been lost. The harbor of Cuxhaven is filled to overflowing with vessels seeking shelter. The coasting trade has been completely suspended.

ON HIS PERSONAL CONDUCT.

Attack Is Made Upon a Former Governor of Colorado.

Council Bluffs, Ia., Oct. 17.—An attack on the personal conduct of former Governor C. S. Thomas of Colorado, an attorney in the noted Portland mining suit for stocks and dividends to the value of \$1,000,000, is contained in an affidavit by J. R. Bischoff of Colorado Springs, which has just been filed here. Bischoff charges in effect that Governor Thomas suggested the alteration of the Portland Gold Mining company's records in order to prevent James Doyle, plaintiff in the case, from receiving 2,000 shares that the books showed were his property.

In the trial of the Portland suit last spring, Bischoff was a witness for James F. Burns, the defendant, having previously served as private secretary to Burns and also as bookkeeper of the company. He now states that he had a conversation with Burns and Thomas over the 2,000 shares. Thomas is quoted as saying:

"That is embarrassing for us, and I will never be satisfied until the stock is rewritten."

Bischoff claims Thomas intimated to him that he was the only man competent to rewrite the ledger, as the original was in his handwriting.

IN WESTMINSTER ABBEY.

Remains of Sir Henry Irving Will Be Laid to Rest.

London, Oct. 17.—The Dean of Westminster, Very Rev. Joseph Armitage Robinson, announced Monday evening that having received a request signed by leading members of the dramatic profession and other persons of distinction he had consented to the interment of the body of Sir Henry Irving in Westminster abbey.

Condolences continue to come from all parts of the world. The latest to be received were from the Prince and Princess of Wales and from the directors of the Imperial theater at St. Petersburg.

VESSEL IS WRECKED

COASTING SCHOONER VAN NAME AND KING LOST OFF SOUTH CAROLINA COAST.

HALF A DOZEN LIVES LOST

TERRIBLE STORY OF SUFFERING TOLD BY THE SURVIVORS OF THE WRECK.

Boston, Oct. 17.—A story of a North Atlantic shipwreck in which eight seamen suffered so fearfully from exposure, hunger and thirst that six of them either died outright, were washed away or, crazed by their fearful experience, threw themselves into the sea, was told Monday by the two survivors of the coasting schooner Van Name and King of New Haven, which was beaten to pieces by a gale off the South Carolina coast on Oct. 6. The two men who lived throughout the five days and were rescued by the schooner Stillman F. Kelley, which arrived here late Monday, are William Thomas and G. Warner, both about twenty-nine years of age, and hail from Antigua, B. W. I. The six who succumbed were Captain William A. Maxwell of New Jersey, Mate E. A. Chase, home unknown; the engineer, a German, name unknown; colored steward, name unknown; colored seaman, William Grizell and Alfred Arthur, both of Jamaica.

The Van Name and King, which has been plying up and down the coast since 1886, left Charleston, S. C., for New York on Oct. 3 with a cargo of hard pine. Two days later she ran into a heavy gale and sprang a leak. The pumps were started but within a short time the engine room was flooded and the pumps choked. At 8 a. m. Oct. 6, with her hold nearly full of water, the schooner was hove down on her beam ends. The crew clambered up on the weather side and lashed themselves to the bulwarks. There they remained, washed by the seas that broke mercilessly over them all day Friday.

The Storm Increased.

That night the storm increased and one great wave crashed aboard, breaking both legs of Seaman Arthur and sweeping Grizell from his fastenings. Arthur's companions could do nothing to ease his sufferings, but when on Saturday the schooner turned completely over they managed to cut his lashings and drag him on a piece of the afterhouse. It was several hours before they were all huddled together on their little raft. That night Arthur died in the arms of Captain Maxwell and his body was dropped overboard. Sunday a craft was sighted but she passed by without heeding the little group of seamen who frantically signalled her. That night the waves subsided and a little rain fell, which was eagerly caught in a tarpaulin and brought some slight relief. It was

only temporary aid, not long after Mate Chase's mind gave way entirely and he jumped into the sea.

The next victim was Captain Maxwell, who on Monday forenoon became violently insane and followed his mate's example of self-destruction.

The spectacle of two men throwing themselves into the sea proved too much for the German engineer and a few hours after Captain Maxwell's death he, too, leaped to his death. The last victim was the colored steward, who died Monday night.

Relief came twelve hours later when the schooner Stillman F. Kelley sighted the little craft and hove to alongside.

Both Thomas and Warner had to be taken off in slings and for two days were unable to move. The rescue took place off Cape Lookout.

TWO PROMINENT MEN SHOT.

No Motive Known for Attempted Double Murder.

Anniston, Fla., Oct. 17.—J. W. Trigg, one of the most prominent citizens of Anniston, is dead and Chief of Police Dill is badly but not dangerously wounded as a result of a shooting affray here Monday night. L. A. Pippin, overseer of the city streets, did the shooting. All three of the principals were good friends. Pippin had passed down the street in front of the city hall on the steps of which Mr. Trigg and Chief Dill were sitting, talking. Pippin, after speaking pleasantly to both gentlemen, suddenly whipped out two pistols and opened fire in the direction of the city hall steps. Mr. Trigg fell mortally wounded and Chief Dill received two painful flesh wounds, after which he overpowered Pippin and ordered him locked up.

SENT TO THE STANDARD OIL.

Profits of Waters-Pierce Oil Company Divided.

St. Louis, Oct. 17.—Inquiry into the affairs of the Standard, Republic and Waters-Pierce Oil companies relating to alleged violation of the anti-trust statutes was resumed here Monday. It was brought out that two-thirds of the profits of the Waters-Pierce Oil company are paid to the Standard Oil company annually. H. Clay Pierce, until recently president of the company, it was stated, received monthly dividends amounting to from 25 to 50 per cent on 3,996 shares, or all but four of the Waters-Pierce company, and his secretary sends two-thirds of this amount to the Standard Oil company.

Young Man Kills His Father.

Trenton, N. J., Oct. 17.—William T. Bevins, Jr., aged twenty-four years, in defense of his mother shot and killed his father Monday evening in a houseboat on the Delaware river. The father was about to attack Mrs. Bevins with a butcher knife when the young man shot him. Young Bevins was arrested.

Suit to Recover Lands.

Tacoma, Wash., Oct. 17.—In the federal court Monday six cases were filed through Attorney General Moody to recover to the government title to lands in Oregon, Washington and California out of which the government had been defrauded.

END OF EPIDEMIC IS NEAR.

Yellow Fever Situation at New Orleans Improving.

New Orleans, Oct. 17.—Following is the official yellow fever report up to 6 p. m. Monday:

New cases, 15; total to date, 3,329; deaths, 3; total to date, 434; new foot, 4; cases under treatment, 139; cases discharged, 2,756.

The first practical evidence of the approach of the wind up of the yellow fever fight here was the issuance of an order by Dr. White Monday consolidating several of the uptown wards and materially reducing the fever inspection in that section. The downtown wards will be similarly treated in a few days.

Dr. Brady has returned from a tour of inspection in the Barataria and Grand Isle districts and reports that there have been 199 cases and 17 deaths with 9 cases still under treatment. Country reports are:

Amelia and Bayou L'Ourez, 3 new cases; New Iberia, 1 case; Le Fourche, crossing, 1 new case; Cote Blanche and Belleami, 5 new cases; Terre Bonne parish (for week), 13 new cases, 1 death; Patterson, 1 new case; plantations nearby, 7 new cases.

Mississippi Fever Report.

Jackson, Miss., Oct. 17.—Following is the Mississippi yellow fever summary for Monday: Vicksburg, 1 new case, 1 death; in county, 1 new case; Natchez, 3 new cases, 2 new foot; Hamburg, 1 new case, 3 suspicious cases; Port Gibson, 1 new case; Gulfport, 1 new case.

Fever at Pensacola.

Pensacola, Fla., Oct. 17.—The fever summary Monday night follows: New cases, 7; total cases, 417; deaths, 2; total deaths, 55; cases under treatment, 178; cases discharged, 181.

SHOT THE WRONG MAN.

Chicagoan Could Not Tell His Twin Brothers Apart.

Chicago, Oct. 17.—Because Frank Norway looks so much like his twin brother, Justice, that a third brother, John, could not tell them apart, Frank is now in a hospital suffering from a bullet wound that John intended for Justice.

The shooting occurred at the home of the brothers. John Norway, in a frenzy of anger at Justice for causing his indictment on a charge of conspiracy, lay in wait and fired from a front window of the house as Frank approached. Without discovering his mistake he fled, thinking he had revenged himself on Justice. The feud that caused this action was the outgrowth of a real estate deal. The injured man's wound is not serious.

BIGELOW TO TESTIFY.

Will Be Brought From Prison to Be a Witness in Goli's Trial.

Milwaukee, Oct. 17.—Judge Quarles Monday decided that Frank G. Bigelow, defaulting ex-president of the First National bank of this city, must be brought back from Fort Leavenworth prison as a witness at the trial of Henry G. Goli, formerly assistant cashier of the bank. Bigelow is serving a ten years sentence. The formal order for his appearance Nov. 20 was signed.

ANIMALS AND TOBACCO.

A Dog That Smoked and a Parrot That Chewed the Weed.

Most animals have an utter abhorrence of tobacco in any shape or form, says the proprietor of a menagerie. I have myself made even a really ferocious dog turn tail simply by puffing smoke in its face, but I do not recommend the means as one to be always relied on.

But to this rule, as to all others, there are exceptions, and numerous instances are known of animals possessing a positive love for the fragrant weed. Dogs, it is well known, can be taught to do almost everything but talk, and in my early days I was connected with a circus which possessed the unique attraction of a terrier which among other tricks had been instructed in the art of smoking a clay pipe. The curious point was that the animal actually got to enjoy its pipe and would insist on having it at the usual time every Sunday, as in the performance on week days.

The parrot is perhaps of all birds the most apt to take up bad habits. A friend of mine has one which is passionately fond of eating and chewing tobacco. If given a sufficient quantity the bird will make itself positively drunk with the nicotine and will stagger about its cage in exact imitation of the actions of an intoxicated human being. Long practice has made the bird something of a connoisseur respecting its favorite luxury, and it now treats fine cut tobaccos with contempt. Its particular delight is the plug affected by sailors.

It is among the simian tribes that tobacco loving quadrupeds are most frequent. This is probably owing to the monkey's overpowering faculty for imitation, which sometimes gets it into trouble. I remember an amusing instance. A man after puffing at a cigarette for a time threw it down near a monkey which had been watching the proceedings intently. The animal snatched it up and puffed gravely for a few minutes. Then a look of intense bewilderment stole over its face, and, throwing the cigarette down, it retired into a corner, evidently very ill.

A gentleman in the north of England has a monkey which is addicted to snuff. The animal has been taught to take a pinch from the box of a visitor with all the courtly air so prevalent in the days when snuff taking was the fashion.—London Tit-Bits.

Full of Tragic Meaning
are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At H. P. Dunn & Co. druggists; guaranteed; 50c and \$1.00. Trial bottle free.

A WEIRD STORY.

Strange Experience With Phenoms in East Africa.

Die Ueberwindliche Welt of Berlin gives an account of phantasms in east Africa. They are described by Colonel Langfeld as having come to his experience. A friend of his, starting for Victoria Nyanza, had said: "If any harm befalls me I'll let you know. I'll give you a sign." The only white civilian there was the son of a large colonial merchant.

Two months later the pigeons in their cot in the middle of the floor appeared to be disturbed. The colonel was aroused in the night and saw two round points, more like glowing coals than the eyes of a wild beast, gleaming from the dovecot. He fired and saw an animal like a chimpanzee, having long, reddish brown hair, fall to the ground and immediately rise and disappear round the corner of the house, uttering a terrible shriek. An old Sudanese declared that it was a devil, that it came as a warning when a European had died an unnatural death and that this was the third time he had seen it. A strict search revealed no traces of blood, although the shot had been fired at only four yards range. Later the colonel, still awake, heard light footsteps on the veranda. Rising to see who was there, he was surprised to find a European sitting at his table, which was fully set out for a meal. As the stranger raised his head in the full moonlight he saw that it was his friend (who had gone to Nyanza), but hollow eyed and with a suffering mien. The colonel managed to utter a question, when suddenly the apparition vanished and the table appeared clear of all dishes. Six weeks later word came to the station that on the same day on which these remarkable events had happened or seemed to happen the young merchant had lost his way and had been killed and partly eaten by wild beasts.

The Ascent of Tree Sap.

The problem of the ascent of sap in trees, an English botanist points out, is yet unsolved. It appears that in the highest trees the total pressure would be nearly 100 atmospheres, and as we cannot suppose that leaves can exert so intense osmotic suction, the only theory at all probable is that the living cells exert some sort of pumping action in the wood.

MINORITY IN THE STORTHING DESIRES REPUBLICAN FORM OF GOVERNMENT.

Christiania, Norway, Oct. 17.—King Oscar's official refusal of the offer of the Norwegian throne for a prince of the house of Bernadotte is expected during the day, when the government will immediately ask the storting to authorize an invitation to Prince Charles of Denmark to become king. It is said that the reply will be favorable and that immediately on its receipt the storting will proceed to his election.

The Republicans are making desperate efforts to secure a plebescite. They have published a manifesto protesting against the election of a king and favoring a republican form of government. It is understood that the Republicans now control the city votes in the storting and it is feared that Prince Charles will decline if the minority vote is sufficiently strong to be worthy of consideration. In government circles, however, it is declared that the question will be settled before the end of the present week.

BARON KOMURA HOME.

Chief Japanese Peace Envoy Reaches Tokio From the United States.

Tokio, Oct. 17.—Baron Komura, chief Japanese peace envoy, arrived here during the day from the United States.

The emperor showed exceptional honor to Komura by dispatching to Yokohama, where he landed from the Empress of India, Colonel Inouye, his majesty's aide-de-camp, who went alongside the steamer in a dispatch boat and brought Komura ashore. Baron Komura landed at the imperial enclosure.

While the baron was on his way to Tokio by train Colonel Inouye constantly kept at Komura's side and on arrival here they drove together to the palace in an imperial carriage sent from the household's stables. The emperor cordially received Baron Komura and during the audience, which lasted over an hour, it is believed the baron made a full verbal report to the emperor of the course of the peace negotiations, emphasizing President Roosevelt's efforts in behalf of peace.

At the close of the audience the emperor honored the baron with a written personal message, highly prized by Japanese statesmen. The message expressed satisfaction at the fact that peace was concluded and commended Komura's able services as shown during the negotiations.

FRENCH SQUADRON SAILS.

May Make a Demonstration in Venezuelan Waters.

Cherbourg, France, Oct. 17.—The armored cruiser Desaix, with Admiral Bevoe de la Peyrere on board, left Monday for Martinique. The second-class cruiser Jurien de la Graviere and the third-class cruisers Lavoisier, Chasseloup-Laubat and Troude will join the Desaix during the voyage. It is understood that the admiral will receive further instructions before reaching Martinique.

The Patrie of Paris, Oct. 13, published a dispatch from Lorient saying that the French cruiser Chasseloup-Laubat, which had returned there from Newfoundland, would not be disarmed, as was intended, as "she will make a part of a naval division which is going to be formed for the purpose of making a demonstration in Venezuelan waters." The French foreign office the same day gave out a categorical denial of the dispatch, the officials saying that no decision whatever had been reached concerning the measures to be taken in regard to Venezuela, as the government was awaiting the result of Ambassador Jusserand's conferences with the authorities at Washington.

FIRE MATTER

AIRED AGAIN

Alderman Peterson, of the Fourth Ward, Cocked and Primed with Typewritten Motion

IS REFERRED TO A COMMITTEE

Meeting of the City Council Was Held Last Evening in Council Chambers

A meeting of the city council was held in chambers last night and in the absence of President Johnson and Vice President Opsahl, Alderman Halladay took the chair. The following aldermen were present at roll call: Gardner, Peterson, Squires, Armstrong, Farrar. Vice President Opsahl came in and took the chair. President Johnson came in later.

The city clerk made his report on the list of delinquent light subscribers and on motion he was instructed to furnish the superintendent with the list with instruction to shut the lights off in cases where the rent is not paid.

The sidewalk committee made a verbal report on the matter of repairing the sidewalk on Sixth and Main streets in front of and at the side of the J. J. Howe property. The committee had been informed by Mr. Howe that he would repair the walk, but that he would just as soon give the lots to someone who would put a cement walk down at this time.

The liquor license bond of L. Nelson was received last night and it was approved subject to the o. k. of the city attorney.

City Engineer Woolman brought up a matter which is of importance. It was in reference to the cleaning out of the septic tank in the big general sewer. He stated that on account of the high water in the spring that the condition at the tank was not what it ought to be and that it is especially important that it be cleaned out in view of the fact that Dr. Bracken, of the state board of health, will be here soon to advise with the city government regarding a water system. Alderman Farrar did not know any reason why the state board of health should not see conditions just as they are and Alderman Gardner expressed a like opinion, but it was finally decided to leave the matter in the hands of the city engineer and sewer committee with instructions to clean the tank out if they think advisable.

A communication was read from Alderman Andrew J. Miller, of the Third ward, tendering his resignation as a member of the council. He assigned as the reason for this action the fact that he had taken up his permanent residence elsewhere. In the communication he recommended that T. Towhey, of East Brainerd, be elected to fill the vacancy.

A resolution was adopted ordering the macadamizing of Eighth street between Laurel and Front streets.

City Clerk F. E. Low reported that his assistant, G. E. Nevers, had resigned. Alderman Farrar moved that the matter of engaging an assistant to the city clerk be left in the hands of a committee of three, as it was reported that the clerk had a scheme to lessen the expense of employing help in the office. This motion prevailed and President Johnson named on the committee Messrs. Squires, Hall and Opsahl.

Alderman Squires reported a bad place on the Oak street road near the old driving park. The matter was referred to the street committee with power to act.

The old fire department matter was given another airing last night when Alderman Peterson, of the Fourth ward, who by the way is the sponsor of the hose company in this ward, brought forward a motion carefully typewritten setting forth the desires of his constituents

who are interested. The motion in its entirety read about as follows: "Moved that if any fire or hose company that is in good standing that are not satisfied with the present schedule that the city council of the city of Brainerd give the said company or companies their portion of the state appropriation each year for the purpose of maintaining said hose company, except the \$200 set aside by the council for the purpose of providing for sick and disabled firemen. Provided also that before any such moneys shall be paid over to the treasurer of any such company the chief of the fire department, or in case of his absence the first assistant or the second assistant chief, together with the alderman from the ward in which the company is located, shall make a report to the city council whether the company has kept up its organization, drill and discipline to the proper standard of usefulness and efficiency, and provided further than any such company is able to keep its membership up to 15 in number such hose company shall receive the sum of \$— based upon the actual membership of its members in good standing and it shall be the duty of the chief to make a report to the city council as to the depletion of any organization. That said money shall be used in buying uniforms for the members of the company."

The amount which Alderman Peterson was willing to have substituted was brought out in the discussion which followed. He was willing that each company should receive \$100 a year. The motion found instantaneous and emphatic opposition and so it was finally decided to refer the matter to a special committee to investigate and report at the next meeting. President Johnson appointed Aldermen Farrar, Halladay and Peterson, and this closed this matter for the time being.

Nothing was done in reference to the water works matter.

SIMPLE REMEDY FOR CATARRH

Just Breathe Hyomei Four Times a Day and Be Cured.

If a few years ago someone had said you can cure catarrh by breathing air charged with a healing balsam, the idea would have been ridiculed, and it remained for that eminent investigator, R. T. Booth, to discover in Hyomei this method of cure.

Hyomei has performed almost miraculous cures of catarrh, and is today recognized by leading members of the medical profession as the only advertised remedy that can be relied upon to do just what it claims. The complete outfit of Hyomei costs \$1.00, and consists of an inhaler, a medicine dropper, and a bottle of Hyomei.

Breathe Hyomei through the inhaler for a few minutes four times a day, and it will cure the worst case of catarrh. It soothes and heals the mucous membrane of the air passages, prevents irritation and effects a complete and lasting cure.

In Brainerd there are scores of well known people who have been cured of catarrh by Hyomei. If it does not cure you, H. P. Dunn & Co. will return the money you pay for Hyomei. This is the strongest evidence that can be offered as to their faith in the remedy.

I heard a Duluth man say he always went fishing with "baited breath"—he thought it improved the catch so much. I think our catch of fall derbys and cowboy hats (that's Stenton and Lampher) could not be improved. Anyhow, you don't have to bait your breath or take any other chances whatever in coming here for your fall outfit. In hats, shirts, collars, neckwear, underwear, socks, shoes—and last but not least, in a swell suit of imported worsted—we have them all beat to a standstill. I can't see what any one within ten miles of this town is thinking of to go anywhere else for his fall togs. No one else will take half the pains to have you look right up to the minute in style and have you feel as well as look the part of a denizen of Easy Street.

WARNER COMEDY COMPANY

The Warner Comedy company opened a week's engagement at the Brainerd opera house last night and as ladies were admitted free the house was packed almost to overflowing. The company was in Brainerd two years ago and at that time made a hit with the audiences that saw them. Last night again as though taken by a wave of enthusiasm the company was greeted by one of the most enthusiastic audiences ever congregated in the Brainerd opera house. The company put on a romance entitled "A Soldier's Sweetheart," and it served admirably as a vehicle to show the ability of the different members of the cast. Collectively the company is above the standard of repertoire companies and besides being adequate to properly present the play they gave specialties which were of a high order. Prof. Mest, the musical wonder, was excellent in his imitations on the violin and showed himself to be an unusually versatile entertainer. Cora Warner in her dances and other specialties was as pleasing as ever and received a round of applause.

Tonight the company will present "Sylvia's Romance," and the same popular prices, 10, 20 and 30 cents will prevail. Seats selling at H. P. Dunn & Co's.

"UMPIRE STATE" STOVES FOR WOOD

OUR CLAIMS FOR SUPERIORITY

Of these stoves over all others are based upon the following exclusively new features:

FIRST—Only Tamala air-tight that does not smoke and spit flames when top feed is opened, or puff, roar and explode while in operation.

SECOND—Jointless, corrugated, all cast iron bottom, having a pit of 6 inches deep, in which the fuel burns without any possibility of leakage.

THIRD—Perfect draft regulation and adjustment by means of our patent screw register in the oval air tight fitted ash door in the pit. The opening for this door is arranged so as to permit the easy and cleanly removal of the ashes, and avoid dust when door is open.

FOURTH—Mounted with lasting and heavy corrugated sheet steel of the highest quality.

FIFTH—Heat deflecting rings surrounding entire stove, and producing wonderful floor heating.

SIXTH—Cast-iron main top with two cooking holes in 24 and 28, and a supplementary swinging feed-top in 18 and 22.

SEVENTH—Check register in pipe collar.

EIGHTH—Handsomely nickel-platted foot rails, urn and nickel panel, knobs, screw register, and *nickle suing top*.

NINTH—Has cast-iron front, fitted with a circular 12 inch door for feeding.

TENTH—Pipe collars made to receive inverted stove pipe, to avoid exterior leakage of creosote, which is inevitable in a thoroughly air-tight stove.

DIVORCE CASE IN COURT.

Troubles of Royalty Aired at Gotha, in Saxe-Coburg and Gotha.

Gotha, Duchy of Saxe-Coburg and Gotha, Oct. 17.—The suit brought by Prince Philip of Saxe-Coburg and Gotha for an absolute divorce from his wife, the Princess Louise, and for an adjustment of their joint property interests began here Monday before the ordinary court for the trial of divorce cases, the prince having waived his technical right to have the case tried by a special court as provided for under the laws of his family.

Both the principals were absent but the Austrian officer, Lieutenant Keglrich, with whom the princess lodged, was present. The president of the court proposed to the lawyers that the two parties seek to bring about a reconciliation, explaining that this was not meant to get the prince and princess to live together again, but to agree to an amicable separation and a satisfactory agreement regarding property. The lawyers agreed and asked for an intermission for the purpose.

During the recess the lawyers agreed to an arrangement on the following basis:

The prince to guarantee the payment to the princess of a yearly allowance of \$18,000 and also to pay to her a lump sum of \$30,000, provided she abandon all of her claims against the

prince and that after the divorce she adopt the name and title of Louise, princess of Belgium.

The lawyers for the princess later attacked the competence of the court to decide the case at all. The court then adjourned to October 30 in order to study the question of its competence and to get an answer from Princess Louise in regard to the plan of settlement.

WITH COAL TAR DYE.

Samples of Butter Furnished Navy Are Colored.

Washington, Oct. 17.—That samples of butter submitted as portions of a large quantity supplied to the League Island navyyard at Philadelphia prove to be colored with coal tar dye is the substance of a report which Chief Chemist Wiley of the department of agriculture will submit during the day to Secretary Wilson. Specimens were recently taken for analysis from the League Island yards’ hospitals, kitchens and barracks, from the United States receiving ship, Lancaster and other navy craft by representatives of the Pennsylvania dairy and food commission, who are said to have obtained similar samples from the men who sold the products. Secretary Wilson will refer the report to President Roosevelt, who will in all probability call the attention of the department of justice to the matter.

DISCOVER A BIG BUNCO GAME.

Buffalo Police Locate a New Form of Swindle.

Buffalo, N. Y., Oct. 17.—The police have discovered a mammoth bunco game, which they say has been worked extensively on the Niagara frontier by a gang of swindlers. William Macon, a Buffalo grocer, the police say, is the latest victim. He lost \$1,730.

The game involved operations in the United States and Canada and perhaps a dozen parties to carry it out. A victim was selected and the profits of smuggling opium explained to him. He was then taken to a Chinese merchant, who agreed to buy all the opium the smugglers could deliver.

The swindlers accompanied their victim to a Canadian city, where confederates sold to them a quantity of powder said to be opium. On their return to the United States in a row-boat other confederates on shore fired blank cartridges at the men in the boat and called on them to surrender in the name of the law. The conspirators in the boat hastily explained to their victim that these were government officers and threw the supposed opium overboard on the pretense of evading prosecution for smuggling.

The police say that two men from Pittsburgh recently were fleeced in a like manner. So far they have been unable to locate the swindlers.

THE RESULT OF JEALOUSY.

Alleged Cause of Double Tragedy at Sioux City, Ia.

Sioux City, Ia., Oct. 17.—It developed Monday that E. H. Darrow of Lead, S. D., who shot and killed Mrs. W. E. Darrow, his daughter-in-law, and then killed himself, had for some time been insanely jealous of the woman, and that he killed her because he feared another suitor for her affections might win her from him. The verdict of the coroner’s jury Monday was that the woman had died at the hands of Darrow and that Darrow had committed suicide.

George E. Darrow, who is studying dentistry in Omaha, and who is a son of the murderer, testified, but professed no knowledge as to the alleged illicit relations between his father and Mrs. W. E. Darrow. Walter Dick of Sioux Falls, S. D., who is married to E. H. Darrow’s daughter, identified the bodies.

Two Killed in a Duel.

Techula, Miss., Oct. 17.—In a sensational pistol duel here Monday night W. A. Spratten and Jack Glenn, two well known traveling men, were killed. Spratten, it is claimed, accused Glenn of cheating in a game of cards. Later the two men met on the principal street of the town and the shooting followed.

Wins Balloon Contest.

EPIDEMIC IS ON THE WANE.

Yellow Fever Situation at New Orleans Improving.

New Orleans, Oct. 1.—Following is the official yellow fever report up to 6 p. m. Thursday: New cases, 16; total to date, 3,261; deaths, 2; total, 419; new foci, 3; cases under treatment, 164; cases discharged, 2,678.

With only 15 new cases and 2 deaths and a steady reduction in the amount of work necessary to bring about a final eradication of the fever in this city, local interest has passed from the fever to the quarantine question. Dr. White is now in Mobile conferring with the local authorities and Saturday will meet the Mississippi authorities.

D. L. E. Zebary, the physician charged with failing to report a case of yellow fever, was convicted before Recorder Marmagout Thursday after a notly contested trial and fined the limit, \$25. He took an appeal.

Public attention Thursday was riveted on the news which the wires brought from various parts of Louisiana and Mississippi as to the appearance of foci because it meant an end to interrupted communication, which is now the principal element of annoyance in the yellow fever situation. The news was of exceptionally favorable character, for while the frost line did not extend to New Orleans, it reached points as near as thirty-five miles north of New Orleans, Crowley, La., reporting a light fall. Aside from the frost the temperature declined almost to the freezing point in some sections of Louisiana with the effect undoubtedly of killing or driving into hibernation all mosquitoes that might have existed in exposed places.

The country reports were as follows: Franklin, 1 new case; New Iberia, 11 new cases; near Plaquemine, 1 new case; Patterson, 7 new cases, 1 death; Tallulah, 3 new cases; Lake Providence, 3 cases, 1 death.

Yellow Fever in Pensacola.

Pensacola, Fla., Oct. 1.—The summary of the yellow fever situation Thursday night follows: New cases, 23; total to date, 353; deaths, 3; total to date, 48; cases under treatment, 181; cases discharged, 125.

DECK SPLOTCHED WITH BLOOD.

Schooner Harry Berwynd Arrives at Southport, N. C.

Wilmington, N. C., Oct. 1.—Her deck and cabins splotched with blood from the fearful butchery following the mutiny aboard the ship early Tuesday morning off the North Carolina coast, the four-masted schooner Harry Berwynd of Philadelphia was towed into Southport Thursday by Wilmington tugs. Aboard was the prize crew of the New York schooner Blanche H. King, who were wanted as witnesses against the three negroes, shackled and brought to the Cape Fear quarantine station on Wednesday, charged with mutiny and murder.

At the preliminary investigation before United States Commissioners Collier of Wilmington and Pinner of Southport Thursday the men who boarded the Berwynd told the story of conditions on the vessel as they found them and the three prisoners were then introduced at their own request. They gave their names as Robert Sawyer, Harry Scott and Arthur Adams, all negroes under forty years of age. Sawyer and Adams employed counsel and both charged that Scott did the killing of the five men with the exception of Captain Rumill, who disappeared before daylight Tuesday morning in a manner of which they knew nothing. Each said he saw Scott shoot the mate and then kill the engineer. He went down the companion way and they heard shots below and Scott came up again bearing the body of the cook, which he threw over the rail. They afterward bound Scott and were steering the vessel as best they could until overhauled by the Blanche H. King.

Scott says all the seamen, four negroes, formed a conspiracy soon after leaving Mobile, Sept. 23, feeling outraged because of short rations. He said that he killed no one except Cokeley, the negro seaman found on deck, and that he killed him in self-defense. Cokeley, he claimed, hit him with a stick and shot at him while he was bound. He attempted no explanation of why he had been bound except that his companions wanted to get rid of him after the trouble. He said he saw Cokeley shoot the mate and saw Adams kill the engineer. He does not know how the cook was killed, as the shooting was below deck.

Scott is a mulatto and the most intelligent of the three.

A Cause of Drowning.

In swimming under a blazing sun the body is submerged at a low temperature while the full force of the sun beats on the unprotected head. To add to the obvious dangers of such a state of things the blood is forced into the head by the pumping action of the limbs in swimming, thus causing the arteries in other parts of the body to be overfilled. The consequence is often a violent headache, which may be followed by insensibility. The swimmer sinks and unless help is at hand adds another to the long list of the mysteriously drowned.

The Power Behind the Purse.

The determining factor in all modern life is money. The hand that holds the purse rules the world, though the spirit must regulate it. Man is the wage earner, but the purchasing power of the nation is in the hands of the woman—that is, among the only women who are of any account in the empire, the women of the middle (in all its tiers) and the lower classes.—London Mail.

Big Elms in Maine.

One of the champion elms of Maine stands in Hallowell. Its girth is 37 feet 10 inches, and it has a spread of top, measured at right angles, of 106 feet by 111 feet. This elm has a most magnificent and symmetrical top, throwing out its branches more than fifty feet in all directions. Down in old York they have some elms of which they are justly proud. One known as the Grant elm has a girth of 17 feet 8 inches and spread of top 71 feet. Another very symmetrical elm stands but a few yards from the York village postoffice whose girth is 14 feet 10 inches, spread of top 82 feet.—Kennebec Journal.

A Most Wonderful Cure.

Joseph D. Underhill, of Doland, S. Dakota, says: “I have received great benefit from your White Wine of Tar Syrup. I had a deep seated cough and the doctors gave up all hopes of my recovery and pronounced it consumption. I tried everything that we could hear of. Finally one of my friends prevailed upon me to use your White Wine of Tar Syrup. I used 1½ bottles and am entirely cured. Such medicine I can recommend to those who were afflicted as I was.”
